"Horse-riding is a unique sport. Beyond developing strength, balance, discipline and fitness, it also relies on a deep bond between horse and rider."

The Program

The BSHS Equestrian Program has been designed for students who have a passion for horses, to enable them to develop their interest and to create a pathway into employment in the equine industry and, for those who own their own horse, into the opportunity to experience individual and team success through interschool competition.

Equestrian Academy

The equine-related industries provide exciting and fulfilling careers, whether in breeding, racing or the veterinary fields, and have an exceptionally strong presence in the Scenic Rim.

COURSE OVERVIEW:

Students accepted into Beautesert State High School's Equestrian Program will be studying the **Equestrian Australia (EA) Equi-Skills Introduction to Horse Management course**.

The course covers equine nutrition, anatomy, saddlery, horsemanship and safety and is an industry recognised, stand-alone certificate.

The INHM course does not involve riding. Those who wish to complete the Riding component of the Equi-Skills course may do so, with our fully qualified coach. This occurs every second Week from March until October. The Levy for this is \$300 per year.

INTERSCHOOL EQUESTRIAN:

Competitive riders with their own horse will have the opportunity to compete and represent Beautesert State High School in a number of interschool equestrian competitions.
