

# BEAUDESERT STATE HIGH SCHOOL

## SCHOOL PRODUCTION ACADEMY

Students have the opportunity to design, film and edit productions. Students will be able to use the productions to enhance the way our community connects with Beautesert State High School.

Learning takes place via high quality workshops delivered by visiting film companies and by specialist teachers, using industry standard software.

Students develop vital skills around collaboration in group settings, while exploring their creative and design abilities, using an array of film equipment.

# SCHOOL PRODUCTION ACADEMY

## OBJECTIVES:

- develop production skills in film projects
- work collaboratively with peers to develop production roles and responsibilities
- develop the ability to critically analyse own work and the work of others
- enhance life skills in self-motivation, discipline and focus
- increase emotional wellbeing through an understanding of the self, other people and the world around
- enhance academic understanding in interpretation, resolution and reflection
- produce high quality products for school marketing.

## TIME ALLOCATION:

- After school
- Sport & Extras program
- Lunchtime editing
